BALTIMORE MAGAZINE METHODOLOGY

To arrive at our results, we polled thousands of physicians in the region in our online survey asking them which doctors are the best of the best in their specialties. Close to 20,000 physician names were submitted in more than 100 specialties. Only those M.D.s with the highest number of peer recommendations made the list.

Assisting with the survey were three physician advisors who were not eligible to be included on the list.
